

Participant Expression of Interest Form

The mission of No Sweat Fashions is to create meaningful and long-term social change for newly arrived refugees and other migrants in Canberra who face social isolation and barriers to employment and education. By means of its trading activities, No Sweat will address these problems by creating jobs, providing training, facilitating community engagement promoting social inclusion.

No Sweat Fashions is now seeking referrals for migrants and refugees in the Canberra area not currently in the workforce interested in participating in our volunteer work experience Fashion Design program (12 months--flexible hours) starting in August 2012.

Additionally we are looking for skilled sewers for PAID contract work in our studio to begin work as soon as possible. Any Australian or overseas work garment industry work experience and qualifications are highly desirable.
